

A donation to this Direct Giving Campaign has been made in your name.

Message from donor _____

The Shrewsbury Public Schools have a proud tradition of preparing our town's youngest citizens for future success by providing an excellent education at a low cost to the taxpayers.

Our students' future success depends on providing them with access to the tools they need to be prepared for a world where using information technology effectively is a must.

Donations enable our schools to provide our students with what they need to ultimately succeed in college and the 21st century global economy.
